OREN AKERMAN,	} Selectmen of Alexandria.
WILL TILTON,	
ARTHUR M. BUCKLIN,	

This certifies that I have examined the foregoing accounts and find them correctly cast and properly vouched for.

H. C. GRAY, Auditor.

Report of School Board

To the citizens and parents in the Town of Alexandria.

Appointed by the Selectmen, at short notice, to fill the vacancies caused by the resignation of the members of the board elected at the school meeting in March, 1911, we have endeavored to perform the duties of the office to the best of our ability and present herewith our report for the year.

All our schools, except District No. 6, were open during the spring term. Your Board received a petition to open school in District No. 6, but felt unable to grant the request and the scholars from that District attended the village school as they have been obliged to do for several terms past. The schools in Districts No. 3 and 8, were not opened for the fall term owing to the very few children there were to attend that term. One family in the town lived so far from any school that we arranged to have the children instructed at home at a cost of two dollars per week.

There were altogether too few scholars on the Roll of Honor this year and it is hoped that parents and teachers will co-operate to make a better showing next year.

Parents should visit the schools much more often than they do ; it is a help to both scholars and teachers to see an active interest taken in their work.

The efficiency of some of our schools is at times seriously impaired by the irregularity in attendance on the part of some pupils who are above the age limit of compulsory attendance. While your Board most emphatically desires that every boy and girl, whether within the age limit or older, shall receive all the education possible, still we feel that the parents or guardians of scholars over fourteen years of age who send them to school should see to it that such pupils attend *regularly*. Irregularity in attendance is not only harmful to discipline but such pupils usually do not keep up in their studies which makes extra claim upon the time and attention of the teacher lessening by just so much the time and attention that the teacher can give to the rest of the scholars and is therefore an injustice to all who do attend regularly.

During the year ninety-eight new text-books (geographies, arithmetics and readers) have been purchased and a corresponding number of old books returned in part payment for the new ones. There is much yet to be done in the way of securing more uniformity in our text books, both for the purpose of economy and for greater efficiency.

The school year, which began July 15, 1911, must be, according to our state law, thirty weeks in length in order to entitle the school district to a share of the state aid in December, 1912. We have had fifteen weeks of school during the fall term and we must have fifteen weeks of school this spring term, also, if the town desires to secure this state aid as was done last year ; we strongly urge that this be done. Also, that a sufficient amount be appro-

riated at the annual school meeting to permit of thirty weeks of school the coming year.
